## **FOR IMMEDIATE RELEASE**

### **Polarion Software Launches U.S. Subversion Workshops**

**Research Triangle Park, North Carolina, February 6, 2008** — Polarion Software, creators of fully integrated application lifecycle management solutions and Subversion services, launches its workshop “*How to Ramp Up to Subversion Fast*” in the United States.

For the past 24 months, Polarion has been conducting this workshop throughout Europe. In a recent Forrester Research ([www.forrester.com](http://www.forrester.com)) report *Software Change and Configuration Management, Q2 2007* (May 29, 2007), Subversion is cited as “the leading stand-alone SCM solution, has sparked widespread interest in the open source version control system, touted by many as the definitive replacement for CVS.” “We have been seeing a consistent increase in demand for this workshop all over the world. In response to our client’s needs, we are duplicating the well received workshops from Europe and offering it to our U.S. clients,” said, Michael Carey, CEO Americas.

The first workshop will take place in the Research Triangle Park, North Carolina, where Polarion’s U.S. headquarter is located, on February 12, 2008. Registration begins at 8:00 a.m. and the session runs from 9:00 a.m. to 1:00 p.m. Cost of the workshop is \$99.00 (US).

Topics covered include:

- Why Subversion?
- Concepts, Installation and configuration of Subversion
- Integration of Subversion with existing development environments
- Subversion interfaces: Command Line, GUI, TortoiseSVN, and others
- Migration from existing version control systems
- Branching, Tagging, Staging, and Hook Scripts
- Setting up multi-site Subversion repositories
- Tips & Tricks, useful Tools

## *Polarion Software Launches US Subversion Workshops*

A “Come Together” business lunch is included in the workshop price. At the conclusion, a random drawing will be conducted and a free license for Polarion® ALM *Team* - the company’s Subversion-based application lifecycle management platform for engineering teams, valued at \$2,949 (US). All participants will get access to the company’s free and open-source tools for Subversion, including *SubTrain* – the first open source training curriculum in the industry designed to help train Subversion trainers and others getting started with Subversion.

Information about the workshops is available online at:

[http://www.polarion.com/company/events/subv\\_workshop\\_us.php](http://www.polarion.com/company/events/subv_workshop_us.php)

Registrants can sign up and pay by credit card at

[http://www.polarion.com/company/events/subv\\_workshop\\_us\\_register.php](http://www.polarion.com/company/events/subv_workshop_us_register.php).

Those unable to attend this workshop may take advantage of a series of webinars offered by Polarion Software demonstrating how the power and potential of Subversion can be extended to provide a comprehensive platform for efficient management of the full software lifecycle.

Information is available at [www.polarion.com/products/alm/demo\\_registration.php](http://www.polarion.com/products/alm/demo_registration.php).

Polarion Software plans to offer workshops approximately every six weeks during 2008. Newly organized sessions will be announced on the company’s weblog at <http://blog.polarion.com>.

### **About Polarion Software**

Polarion Software is a global leader of comprehensive application lifecycle management (ALM) solutions and services aimed at improving efficiency and productivity in distributed development environments. Polarion ALM for Subversion combines every major phase of managing the software development lifecycle into one comprehensive ALM platform that provides teams with the real-time information on the actual state of software development in their organization necessary to make intelligent, informed decisions, while leveraging Subversion and other advanced open source technologies to deliver unique functionality and a significant return on investment. Additional information is available at [www.polarion.com](http://www.polarion.com).
