PERFORCE

# Introducing Perforce Helix
# Next Generation Hybrid Version Management

**Flexible Workflow**
Version control, code reviews, simple file sharing, distributed, Git

**Fast and Scalable**
From 10 to 10,000+ users, unlimited files

**Every file**
Efficiently handles large, often binary, data

**All contributors**
Familiar tools, natural workflows

**Anywhere**
Supports geographically distributed teams

**Secure**
Granular permissions, theft risk monitoring

**Open and Extensible**
APIs and integration hooks for customization
